

EZ-sensor™

Programmable Tire Pressure Monitoring Sensor

Starter Kit

The revolutionary new replacement TPMS Sensor is here! The EZ-sensor™ is the only truly programmable TPMS replacement sensor solution! The EZ-sensor™ is a blank sensor until programmed with a Bartec made TPMS Tool. Once programmed to a specific application, simply install the EZ-sensor™ as you would any replacement.

Everything you need to get started today!

- Schrader® EZ-sensors™
- Aluminum Valve Stems
- Training DVD
- Programming Fixture
- Quick Start Guide
- User Guide
- Application Guide

Call your
Bartec Distributor
TODAY!

Patented Technology backed by market leading TPMS Technical Support!

The EZ-sensor™ starter kit will make servicing TPMS easier the day it arrives! The EZ-sensor™ can be programmed with your Tech400 tool. Simply visit our website at www.bartecusa.com to log in and register for the software. Use the software certificate included with the Starter Kit to retrieve your update*.

* There is no extra charge for the EZ-sensor software, however your website license must be paid and current . See your distributor for information on how to activate your web account.

The right part, right away

TPMS Sensors need to be replaced for many reasons. The most common are:

- Sensor battery has failed
- Sensor is broken during service
- Sensor is damaged while being driven
- New sensors for additional wheel sets

EZ-sensor™ makes it possible to solve each of these scenarios. WITH JUST TWO PARTS!

Sensor Part Number: 33000 (315 MHz)
Coming Soon: 433 MHz version
